ABOUT ISEST

The International School of Engineering, Science and Technology (ISEST), a sister institution of Yaoundé International Business School (YIBS); is dedicated to delivering high-quality education in engineering, agriculture, medical sciences, and technology.

ISEST nurtures a new generation of professionals who are not only skilled but also purpose-driven. It fosters a learning environment where innovation thrives, ideas are transformed into solutions, and students are inspired to make meaningful contributions to society.

Our mission is to train competent professionals, innovators, and problem-solvers equipped to tackle global challenges and drive sustainable development. By combining academic excellence with hands-on practical experience, we ensure our graduates are job-ready, entrepreneurial, and capable of creating lasting impact in their communities and beyond.
